ABOUT FOUNDER

DESIGNING TODAY, BUILDING TOMORROW.

I am **Dhiren Dhall**, a passionate CAD/CAM designer with a strong foundation in mechanical design, 2D drafting, and 3D modeling. I specialize in creating accurate, innovative and industry-standard designs using **AutoCAD** and **SolidWorks**.

My journey in the world of design is driven by curiosity, creativity, and a commitment to excellence. I believe every concept has potential, and with the right design approach, it can be transformed into real-world solutions.

I focus on precision, functionality, and professional quality in every project I work on. From simple components to complex assemblies, I ensure that every design meets the required standards and serves its purpose effectively.

I am continuously improving my technical skills and exploring new tools, techniques, and design methods to stay aligned with industry advancements.

My goal is to deliver designs that not only meet expectations but also add value through **innovation**, **accuracy**, and **attention to detail**. I am dedicated to growing as a professional and contributing to meaningful engineering solutions.

MY APPROACH

I follow a systematic and professional approach to understand requirements, plan the design process, create accurate models and deliver high-quality results on time.

UNDERSTAND

I study the requirements carefully and analyze the objectives to plan the right approach.

DESIGN

I create accurate and efficient designs using professional tools and techniques.

ANALYZE

I check every detail for accuracy, functionality and manufacturability.

DELIVER

I deliver high-quality, industry-standard designs on time with complete satisfaction.

MY EXPERTISE

MECHANICAL DESIGN

Creating innovative and practical mechanical designs with a focus on performance and reliability.

CAD DRAFTING

Precision 2D drafting with proper dimensions, annotations and industry standards.

3D MODELING

Accurate 3D part and assembly modeling using SolidWorks for various applications.

ASSEMBLY DESIGN

Developing assemblies with proper fitment, constraints and motion understanding.

TECHNICAL DOCUMENTATION

Preparing detailed drawings, BOMs and documentation for manufacturing.

PROBLEM SOLVING

Analytical thinking to solve design challenges with efficient and effective solutions.

WHAT DRIVES ME

The passion to learn, the discipline to improve, and the commitment to create better designs every day. I believe consistency, dedication and hard work are the keys to long-term success in engineering and design.

GREAT DESIGN IS NOT JUST WHAT IT LOOKS LIKE, BUT HOW IT WORKS.

SERVICES

PROFESSIONAL **CAD/CAM** DESIGN SOLUTIONS

DELIVERING ACCURATE. RELIABLE. INNOVATIVE.
ENGINEERING DESIGNS.

At Dhiren CAD/CAM Designs, we provide high-quality design services using industry-leading software and modern design methods. Our goal is to deliver precise, efficient and manufacturable solutions for every engineering need.

CAD DRAFTING

Precise 2D engineering drawings with proper dimensions, annotations and industry-standard practices.

01

3D MODELING

High quality 3D part and component modeling using SolidWorks with accuracy and attention to detail.

02

MECHANICAL DESIGN

Designing mechanical components and systems with focus on performance, durability and functionality.

03

ASSEMBLY DESIGN

Creating assemblies with proper constraints, fitment and motion understanding.

04

TECHNICAL DOCUMENTATION

Preparing detailed drawings, BOMs and documentation for manufacturing and reference.

05

SOFTWARE WE USE

MECHANICAL
DESIGN

GOOD DESIGN IS NOT JUST
WHAT IT LOOKS LIKE,
IT'S **HOW IT WORKS.**

INDUSTRIES WE SERVE

Automotive

Mechanical Manufacturing

Industrial Equipment

Prototyping &
Product Development

Fabrication & Machining

WHY CHOOSE US?

PRECISION FOCUSED
Every design is created with high accuracy and attention to detail.

PROFESSIONAL APPROACH
Professional communication and commitment to client satisfaction.

MODERN TOOLS
Using industry-standard software like AutoCAD & SolidWorks.

INNOVATIVE SOLUTIONS
Creative and practical solutions tailored to project requirements.

TIMELY DELIVERY
On-time delivery with proper planning and efficient workflow.

QUALITY ASSURANCE
Quality check at every stage to ensure the best output.

TECHNICAL SKILLS

At Dhiren CAD/CAM Designs, we combine engineering expertise with advanced CAD tools to deliver **high-quality**, **precise**, and **manufacturable** design solutions across multiple industries.

A

AUTOCAD 2D DRAFTING

Creating precise 2D drawings, layouts, and assemblies with detailed dimensions, annotations, and industry-standard documentation.

AUTOCAD BASIC 3D

Developing 3D models, isometric views, and basic part modeling for visualization, concept clarity, and production reference.

SOLIDWORKS MODELING

Accurate 3D part and assembly modeling with parametric design, feature-based modeling, and smart component management.

MECHANICAL COMPONENTS DESIGN

Designing standard and custom mechanical components such as shafts, gears, bearings, housings, couplings, brackets, and more.

ENGINEERING DRAWINGS

Preparing GA drawings, part drawings, and assembly drawings with proper tolerances, fits, GD&T, and BOM for manufacturing.

ASSEMBLY DESIGN

Creating detailed 2D assemblies with mates, constraints, exploded views, and motion studies for functional accuracy.

TECHNICAL DOCUMENTATION

Generating clear, structured, and industry-compliant technical documents including datasheets, BOMs, and process sheets.

DIMENSIONING & TOLERANCING

Applying accurate dimensions, tolerances, fits, and GD&T to ensure perfect manufacturing and assembly performance.

BASIC RENDERING

Creating realistic 3D renders and visualizations for presentations, client approvals, and marketing materials.

MS OFFICE (WORD, PPT)

Preparing professional reports, design summaries, presentations, and documentation using MS Word and PowerPoint.

OUR COMMITMENT TO QUALITY

ACCURATE DESIGNS

Precision in every dimension and detail.

RELIABLE SOLUTIONS

Delivering dependable designs for real-world applications.

ON-TIME DELIVERY

Timely and efficient delivery without compromising quality.

CLIENT FOCUSED

Understanding your needs and delivering better than expected.

DHIREN CAD/CAM DESIGNS

TRANSFORMING IDEAS INTO
PRECISION ENGINEERING DESIGNS

DESIGNING TODAY, BUILDING TOMORROW.

TOOLS USED

At Dhiren CAD/CAM Designs, we utilize industry-leading software and tools to deliver precise, efficient, and innovative engineering solutions. Our advanced toolset enables us to transform ideas into **precision-engineered designs**.

A

AUTOCAD 2D DRAFTING

Creating precise 2D drawings, layouts, annotations, and technical documentation with accuracy and industry standards.

**SW**

SOLIDWORKS 3D PART MODELING

Developing accurate 3D part and assembly models with advanced features, simulations, and design validations.

OTHERS

MS WORD | MS POWERPOINT

Documentation, technical reports, design summaries, presentations, and client deliverables.

SOFTWARE CAPABILITIES

PRECISE DRAFTING

High-accuracy 2D drawings with detailed dimensions, tolerances, and GD&T for manufacturing.

3D MODELING

Creating detailed 3D models and assemblies with proper constraints, mates, and feature management.

DESIGN VALIDATION

Checking interferences, fitments, and movements to ensure design accuracy and reliability.

TECHNICAL DOCUMENTATION

Generating BOMs, assembly drawings, part lists, and detailed documentation for production and reference.

PRESENTATION & REPORTING

Creating professional reports and presentations to communicate design intent and project progress.

WHY OUR TOOLSET MAKES A DIFFERENCE

ACCURACY

Delivering high-precision designs with error-free documentation.

EFFICIENCY

Optimized workflows and smart tools for faster turnaround.

INNOVATION

Leveraging advanced features to create innovative solutions.

QUALITY

Industry-standard practices ensuring reliable and robust designs.

COLLABORATION

Seamless documentation and communication for better project execution.

EMPOWERING DESIGNS. ENGINEERING EXCELLENCE.

Our advanced tools and expertise help turn complex ideas into manufacturable, efficient, and high-quality engineering solutions.

OUR PROJECTS

INNOVATIVE DESIGNS. ENGINEERED TO PERFECTION.

Explore a range of projects we've designed and delivered across diverse industries. Each project reflects our commitment to **precision, quality, and innovation.**

PRECISION FOCUSED DESIGNS

Accuracy in every dimension and every detail.

PROFESSIONAL APPROACH

Structured process, clear communication and reliable results.

MODERN DESIGN METHODS

Using advanced CAD tools and industry best practices.

INDUSTRY STANDARD PRACTICES

Following proven standards to ensure safety, quality & performance.

WHAT OUR PROJECTS REPRESENT

DIVERSE INDUSTRIES

Solutions designed for automotive, manufacturing, aerospace, and more.

CUSTOM SOLUTIONS

Tailored designs to meet unique requirements and challenges.

PRECISION ENGINEERING

High-accuracy designs ensuring performance, reliability, and long-term efficiency.

INNOVATION DRIVEN

Applying the latest tools and technologies to deliver smart solutions.

QUALITY ASSURED

Every project follows strict quality standards and best practices.

TIMELY DELIVERY

On-time project completion without compromising on quality.

OUR DESIGN PROCESS

REQUIREMENT ANALYSIS

Understanding your needs.

CONCEPT & PLANNING

Creating smart design strategies.

3D MODELING & DESIGN

Detailed 3D models with precision.

SIMULATION & VALIDATION

Ensuring performance and reliability.

DOCUMENTATION & DRAWINGS

Industry-standard drawings & BOM.

DELIVERY & SUPPORT

On-time delivery with ongoing support.

DESIGN PROCESS

TURNING IDEAS INTO PRECISION ENGINEERING DESIGNS

At Dhiren CAD/CAM Designs, our proven design process ensures every project is handled with **precision**, **efficiency**, and **attention to detail**.

PRECISION FOCUSED DESIGNS

Accuracy in every dimension and every detail.

PROFESSIONAL APPROACH

Structured process, clear communication, reliable results.

MODERN DESIGN METHODS

Using advanced CAD tools and industry best practices.

INDUSTRY STANDARD PRACTICES

Following proven standards to ensure safety, quality & performance.

01

REQUIREMENT ANALYSIS

Understanding project requirements, goals, and technical specifications.

02

CONCEPT DESIGN

Creating initial concepts and ideas with feasibility analysis.

03

3D MODELING

Developing accurate 3D models using advanced CAD software.

04

DRAFTING

Preparing detailed 2D drawings with dimensions, GD&T and tolerances.

05

REVIEW & DELIVERY

Quality check, client review and final delivery with complete support.

OUR PROCESS, YOUR ADVANTAGE

ACCURATE & RELIABLE

Ensuring precision in every design and documentation.

TIME EFFICIENT

Streamlined workflow for faster turnaround and on-time delivery.

QUALITY ASSURED

Strict quality standards and thorough verification at every stage.

CLIENT CENTRIC

Focused on client satisfaction with clear communication and support.

INNOVATIVE SOLUTIONS

Creative and practical design solutions that add value to your projects.

WHY CHOOSE DHIREN CAD/CAM DESIGNS?

At Dhiren CAD/CAM Designs, we are committed to delivering precision-engineered designs that drive innovation, ensure accuracy, and exceed expectations. We don't just design – we **engineer excellence**.

PRECISION FOCUSED DESIGNS

Accuracy in every dimension and every detail.

PROFESSIONAL APPROACH

Structured process, clear communication and reliable results.

MODERN DESIGN METHODS

Using advanced CAD tools and industry best practices.

INDUSTRY STANDARD PRACTICES

Following proven standards to ensure safety, quality & performance.

PRECISION & ACCURACY

Every design is created with extreme attention to detail ensuring perfect fit, function, and performance.

EXPERIENCED PROFESSIONALS

Skilled CAD/CAM designers with hands-on experience in diverse industries and complex projects.

TIMELY DELIVERY

We value your time and ensure on-time delivery without compromising on quality.

CLIENT SATISFACTION

Our client-centric approach ensures your ideas are understood, valued, and delivered beyond expectations.

CONTINUOUS IMPROVEMENT

We continuously upgrade our tools, skills, and processes to provide innovative and efficient design solutions.

LONG-TERM PARTNERSHIP

We aim to build long-lasting relationships by delivering consistent quality, trust, and support through every project.

OUR COMMITMENT TO EXCELLENCE

QUALITY ASSURED

Strict quality standards and thorough checks at every stage.

ADVANCED TOOLS

Utilizing latest CAD/CAM software and technologies for smarter designs.

INNOVATIVE SOLUTIONS

Creative and practical designs tailored to your unique requirements.

DEDICATED SUPPORT

Responsive communication and support throughout the project lifecycle.

OUR CORE VALUES

INTEGRITY

Honest, transparent, and ethical in everything we do.

PASSION

We love what we do and it reflects in our work.

INNOVATION

We embrace new ideas and technologies.

TEAMWORK

Collaborative approach for greater success.

EXCELLENCE

Striving for excellence in every project.

VISION

To become a trusted name in CAD/CAM and mechanical design by delivering **innovative**, **accurate**, and **industry-standard** engineering solutions while continuously improving technical expertise.

OUR VISION DRIVES US TO

DELIVER INNOVATION

Embrace new technologies and creative solutions to stay ahead in a competitive industry.

ENSURE ACCURACY

Maintain the highest standards of precision and quality in every design and project.

BUILD TRUST

Create long-term relationships through reliability, transparency, and client satisfaction.

DRIVE GROWTH

Continuously evolve our skills, processes, and tools to deliver greater value to our clients.

KEY FOCUS AREAS

PRECISION INNESINGING

Detailed, accurate, and functional designs for every requirement.

MANUFACTURING FOCUS

Designs optimized for manufacturability, assembly, and performance.

ON-TIME DELIVERY

Efficient workflow and commitment to meet deadlines every time.

CONTINUOUS IMPROVEMENT

Upgrading skills and tools to deliver better, faster, and smarter solutions.

CLIENT SATISFACTION

Client success is our priority, and we work tirelessly to achieve it.

MISSION

To provide high-quality CAD designing services using advanced tools and industry best practices, ensuring **accuracy**, **creativity**, and **dedication** while building strong professional relationships and contributing to engineering excellence.

OUR MISSION IN ACTION

ADVANCED TECHNOLOGY

Leveraging latest CAD/CAM tools like AutoCAD, SolidWorks, and more for superior results.

CREATIVE & INNOVATIVE

Transforming ideas into practical designs with innovative thinking and engineering expertise.

QUALITY COMMITMENT

Delivering error-free, reliable, and manufacturable designs that meet global standards.

STRONG RELATIONSHIPS

Collaborating closely with clients to understand needs and deliver solutions that exceed expectations.
