

# DHIREN DHALL

MECHATRONICS ENGINEERING STUDENT | CAD | FABRICATION | MECHANICAL DESIGN

8866079191 | dhirenprecision@gmail.com | Warsia, Vadodara, Gujarat

## PROFILE

Hands-on Mechatronics Engineering student with practical experience in mechanical design, CAD modelling, fabrication, welding, and workshop operations. Skilled in SolidWorks and AutoCAD, with hands-on exposure to lathe machines, grinding, cutting, electrical work, and basic milling. Interested in developing practical mechanical and robotic systems through design, fabrication, prototyping, and problem-solving.

## EDUCATION

| PROGRAM                  | INSTITUTE / UNIVERSITY | STATUS   |
|--------------------------|------------------------|----------|
| Mechatronics Engineering | Parul University       | 1st Year |

## TECHNICAL SKILLS

**CAD & Design:** SolidWorks, AutoCAD, 3D Modelling, Mechanical Design, Mechanical Drawings

**Fabrication & Welding:** Arc Welding, MIG Welding, TIG Welding, Fabrication Work

**Workshop Skills:** Lathe Machine, Grinding, Cutting, Basic Milling

**Measurement:** Vernier Caliper

**Electrical & Tools:** Basic Electrical Work, Workshop Tools & Hands-on Operations

**Software:** MS Office

## PROJECTS

### Arduino UNO Smart Obstacle-Avoiding Robot

- Developed a practical Arduino UNO based robotic prototype using sensors and motor control concepts to detect obstacles and change movement accordingly.

### Line-Following Robot

- Built a robot designed to follow a predefined path using sensor-based detection and motor control.

### Pipeline Error-Detection Robot

- Worked on a robotic concept for identifying or locating errors in pipelines, combining mechanical design, robotics, and practical problem-solving.

## LANGUAGES

Hindi • English

## CORE STRENGTHS

Hands-on fabrication • Mechanical problem-solving • CAD-based design • Workshop practice • Prototyping • Willingness to learn
